The Cincinoati Matter.

CINCINNATI, O., April 3,-The Cincinnati trades assembly tonight passed a vote of thanks to the members of the veteran regiment of this city, who refused to go to the defense of the murderers in the jail, and also commended the members of the 4th Ohio national guard regiment for refusing to march to the jail Saturday night to take part in the attack on the mob; also voted to ask the Dayton assembly to pass a vote of thanks to the members of the 4th regiment of that city. This action was not taken without opposition from some of the leading members, but the majority favored it. The News Journal had an interview with L. A. Phillips, a member of the jury, who tried Berner, who has been accused of going to St. Louis to escape the mob's violence. Phillips says he is in St. Louis in pursuance of a plan made before the Berner trial; that he was at Music hall the night the riot began, and remained in Cincinnati without molestation till Sunday night; says that on the first ballot the jury ance element made such a vigorous war on the showed seven for acquittal. He was for murder eleven for manslaughter and one for murder in the second degree, but he yielded at last, because of sickness in his family, and was told that he would be kept there 30 days unless he agreed. After thirty-six hours he voted for manslaughter and that ended it. He thinks the newspapers of Cincinnati are responsible for the outbreak.;

Latest from the Cyclone Country.

CHICAGO, April 3.—The News' Muncie, Ind., special says: The cyclone which destroyed Oakville day before yesterday was more extensive than at first reported, devastating a distance of ten miles. It is learned that the track extended twenty miles, sweeping everything before it. There were numerous other casualties, but as far as beard no additional fatalities. Turner Johnson, a boy of Oakville, whose skull was crushed, died today, and Jeff Hoover cannot live. The loss in the county outside of Oakville is estimated at \$150,300. Reports have been received of fifteen farmers whose houses and barns, mostly good ones, were totally destroyed and themselves and families more or less injured, a few seriously. One farmer had 75 acres of fine timber blown down, and farm implements along the entire track of the storm were blown into splinters. Lasantsville, a few miles east, is reported utterly destroyed, and a few persons killed In all this section the roads through the woodlands were absolutely impassable until axemen had cleared the way, and it is extremely difficult to tread through these parts except on foot. Farmers in this section lost their crops of the past two years, and are in a very bad condition to stand this disaster. The homeless ones are being sheltered by those fortunate enough to be outside of the track of the storm. Relief is already coming.

Pouring Into Dakota. ST, PAUL, April 4.—A. E. Johnson, the Northwestern emigration agent, has returned from an extended trip through the Red river valley. He visited many farmers and business men of the valley, and says the snow is fast disappearing taken in twelve days. and seeding will commence earlier this season than usual, about the first of the week. Many farmers are hiring hands for that purpose and paying from \$20 to \$25 per month. The land office at Crookston is filled nearly all the time with land hunters, who are chiefly from eastern Canada and the old eastern states. A big saw mill company is organized at Grand Forks, which will be capable of sawing 125,000 feet of lumber. The trains from there to Devil's Lake are crowded with land speculators and settlers. The townships in Nelson county, on the boundary line of Dakota and Manitoba, which have recently been opened for settlement, are being rapidly populated. A great many Canadians are dissatisfied with Manitoba and are crossing the line.

The Chicago Socialists.

CHICAGO, April 3.—The socialists of the city met tonight to declare the true cause of the late riots in Cincinnati, which is declared to have been the premature explosion of general discontent, caused by the fire brand inciting and inflamamatory speeches by so called leading citizens, who were seeking to divert the attention of the people from the real causes of existing social iniquities which have become almost unbearable by painting out to them an insignificant detty criminal and individual murderer, as one of the causes of the existing evils, and human degeneracy. The resolutions further declare that the militia wantonly killed fifty or more citizens.

The following is a list of tne lost: Mrs. Aven, of Cuthbert, Ga.; Miss Simpson, of Fort Gaines, Ga.; Julia Anderson, chambermaid; Richard Coleman, pantryman; Adolph Thomas, fireman; A. Stephens, and Randolph Singer, deckhands; Bud Griffith, stevedore. Three hundred and seven bales of cotton and small miscellaneous freight were burned. The boat was valued at \$24.000 and is a total loss. No insurance. There were 16 cabin and 9 deck passengers on board. The steamer belonged to the Central line and plied the Catahor chee river between this city and Apalachicola bay. The passengers who, escaped have reached this city, some of them severely burned

Devil's Lake Region Opened Up.

Daval's Lake, Dak., April 3 .-- An executive order issued by President Arthur on March 29th reduces the Turtle Monntain Indian reservation from twenty to two townships, and opens up for settlement 415,000 acres in the Devil's Lake land district. General O C. Clements reached here tonight with a copy of the order, which is published now for the first time. This is the base of the Turtle Mountain Coal Mining company, and its being added to the public domain averta all possible danger of interferences with their operations by the Indians, who are thus wrested of all rights. Advices today from the Dayton, Ohio, party now in the mountains, say the talk of the eastern press about Indian troubles is all moonshine, as they are well and happy.

All Quiet at Cincinnati.

CINCINNATI, April 3.—Matters today lave been quiet. A portion of the barricades around the jail remain as rallying points in case of any further attack. The lower portion of the court house will soon be protected by boards to keep out the crowds. The militia on duty, the 17th regiment, patrol the sidewalks all around the court house and jail and keep 'everybody from approaching nearer than the curbstone. Though almost every building in the vicinity is marked by bullet holes which ordinarly would draw crowds, sight-seers are comparatively few. Therefore but few people about and they keep

Great Fire in London.

LONDON, April 3.—A fire yesterday originated in the printing house of Pardon & Hanes, in Paternoster row, and thence spread to the famous old Dolly's chop house, the house of Fandel, Phillips & Sons, importers of toys and fancy goods in Newgate street, the large book bindery of Smith Bros., Troy Lane, and the music publishing house of O. Two Villains Less.

Winniped, April 3 -John and George Stephenson were executed here this morning for the murder of an old man named John McCarthy, at Troy, on the 14th of June last. The prisoners made a full confession of guilt, and acknowledged the justice of the sentence. Death was almo-t instantaneous. The prisoners appeared to think the authorities would not execute them, but on seeing the coffins the illusion was dispelled, and they sought religious consolation.

Jailed for Forgery.

BRAINERD, MINN., April, 3.-Thomas H. O'Brian, of O'Brian Blos., charged with forgery was brought here in custedy today from Aitken and lodged in jail by Sheriff Mertz. He puts the crime on his brother, who fled and forfeited his bail. O'Brian is today an occupant as a prisoner of the building that last fall he aspired to occupy as sheriff, having been at the head of the ticket of the so called Peoples reform party, which recently carried the city election.

THE WASHINGTON BUDGET.

Washington, April 1.—A bill was introduced making certificates of gold and siver deposits in the United States treasury legal tender for all debts. The bill for the relief of the Jeanette survivors passed. The senate resumed the consideration of the education bill HOUSE

Bills were reported favorably to provide for the inspection of live stock and hog products to forfeit the Marquette & Ontonagon' railroad land grant; for the investment of money deposit ited in the treasury in trust by national banks: adversely for a system of international commerce; for a commission on the alcoholie liquor traffic. The bill for the retirement of trade dollars was dehated at considerable length and passed by a vote of 198 to 46, after the fourth section, providing that trade dollars recoined into standard dollars shall be deducted from the amount of bullion required to be coined by the remonetization act, had been stricken out by a vote of 113 to 118. The Kiefer-Boynton investigating committee reported, exonerating Gen.

HOUSE.

Boynton.

Washington, April 2.—Doraheimer presented memorial from land holders of the Northern Pacific railroad company, praying to be heard before the committee on public lands on the bill declaring the forfeiture of land granted and asking congress to protect their interests. Re-SENATE.

WASHINGTON, April 2.—The senate spent the greater part of the day in consideration of the education bill without action. Bliss continued his testimony before the Springer committee today and will testify again tomorrow. Senator Maxey has prepared an amendment to the house bill for the retirement of trade dollars. Secretary Chandler directed Commodore Fill J. Brown, commanding the New York navy, to arrange a suitable reception for the remains of Ex-Secretary Hunt, which will arrive in New York on the steamer Elbe. The funeral arrangements in Washington have been placed in the hands of Commander McCalls. |The interment will be at Oakhill cemetery, with military honors. The navy department will be closed the day of the funeral.

THE APACHES.

Washington, April 2.—Information has been received at headquarters of the army from the United States consul general at Matsmoras concerning the Apaches in northern Mexico, which tends to strengthen the belief that little Charlie McCames was killed by his captors. Ju is still alive. It is reported that if General Crook had had supplies enough in his Mexican campaign to have remained in the mounts longer, Ju and every Apache in those mountains would have come in. General Crook was compelled to move too soon on account of the large number of squaws and children. READJUSTING SALARIES.

Washington, April 3.—In the senate the morning was consumed in routine business of an uninteresting character. The education bill was taken up and discussed until adjournment. In the house a resolution was adopted authorizing the employment of laborers to fold campaign speeches. The Indian appropriation bill was considered and a motion was made to strike out the appropriation for the payment of Indian inspectors and to abolish that office

The house went into committee of the whole on the Indian appropriation bill. The caucus of republican senators this morning was not very fully attended. The education bill was the only topic of discussion and several amendments were prepared by the caucus committee which were approved by the cancus. Chief among them was a proposition to reduce the aggregate appropriation to between \$70,000,000 and \$80,000,000, and to make the money available only on requisition by states under certain restrictions.

The secretary of the interior ordered a suspension of proceedings in the land office case of Hanmas, Louisians, land grant pending the action of the supreme court, and further ordered a reservation of the lands within 111 leagues of the Mississippi river.

Seeding.

Those who have recently arrived from the east declare that the season in the Missouri valley is at lesst two weeks in advance of northern Minnesota and the eastern portion of the territory. Several Bismarckians have come in from the east within the last few days, and declare that the difference is bardly credible. While vast heaps of snow and pools of water cover the land in Minnesota and the Red river valley, the land in this section is high and dry, and farmers are busily engaged sowing the golden seed broadcast o'er the fields which will soon be covered with waving grain. Farmers commenced seeding as early as a week ago, and Manager Cushman started the grain sprinklers on the Hayes farm Monday morning. The outlook for a good crop is exceedingly bright.

The New Time Card

The new time card which takes effect at four o'clock p. m. Sunday, April 6th, provides for two trains a day each way, one of which connects with the fast mail train from Chicago The trains will arrive and depart as follows: The fast train from the east will be known as

the Pacific express, and will arrive at 11:45 s. m. and leave at 11.50 a.m. The Missouri river express will arrive from the east at 6:25 p. m. and depart at 6:30 p. m. The Atlantic express going east, will arrive at 5:10 p. m., and departs at 5:15 p. m. The Minneapolis and St. Paul express, going east, arrives 9:30 a.m leaves,9:35a.m The Pacific and Atlantic express trains will not stop at all stations along the road, passing

express, from the east, which reaches Bismarck at 11:45 a. m. will stop between Fargo and Bismarck, at the following points only: Casselton, Tower City, Valley City, Sanborn, Jamestown, Crystal Springs, Dawson, Steele and Sterling.

The Atlantic express, going east, reaching Bismarck at 5:10 p. m., will make stops between this point and Fargo as follows: Menoken, Steele, Dawson, Tappen, Crystal Springs, Jamestown, Sanborn, Valley City, Tower City, Casselton and Mapleton.

To put the Bismarck card "in a nutshell" the following table is given:

Going west. Going east. Arrive. Depart. Arrive. Depart. 11:45 am. 11:59 am. 5:10 p.m. 5:15 p.m. 6:25 p.m. 6:30 p.m. 9:30 a.m. 9;35 a.m. This card takes effect April 6th.

The Settlers' Domain.

Tuesday was the liveliest of the season in the Bismarck land office and the majority of entries were for the country immediately surrounding Sims. The office was crowded from morning till night with land seekers, and the corridors, filled with sturdy yeomen, assumed the appearance of the native boom. But instead of the frantic jostle and unsettled rush of the ancient elbow jam, the throng was composed of coolheaded, deliberative men, who had few questions to ask, and who had decided upon the section of country in which to locate.

THE COLONIES

organized during the winter are already sending out advance couriers, and in the next five weeks the number of permanent settlers for the Missouri slope will be beyond all prophecies and expectations. The Cleveland colony, which located west of the river at Glenulien last summer, will soon be reinforced by a number of families. This colony is under the management of Issac Bichardson and letters were received at the land office a few days since asking for thirty applications for homesteads, which signifies an intention on the part of the colony to take up a large amount of land in the vicinity of Bismarck. The colonies for New Salem and Sims have not put in an appearance, but are expected next week. The officers of the land office anticipate a lively season, and already they are kept busy making out papers and giving information to the horde of newcomers.

MINOR LAND NOTES.

Those having business at the land office will do well to postpone the same if possible until next Monday, as the work of removing the office effects from Union block to the First National bank block will be commenced today and the office will be closed until tomorrow night. Notwithstanding the inconvenience and annoyance of removal, the officials and clerks will strive to

accommodate all having business to transact. Deputy U. S. Surveyor Austin is in the city, ready to receive applications from settlers who desire to have townships surveyed. Settlers should correspond with him.

R. S. Brookings, deputy United States surveyor, who did considerable surreying in Emmons and Morton counties last year, will be here in a few days, and will proceed to McLean county, where he will survey township 146, range 82, tp. 147—80 and 147—81. He also has applications for the survey of land near Dickenson and Gladstone and several townships in the southern portion of Burleigh county.

Sam'l Thorn, one of the first settlers of Gladstone, made final proof on his homeatead near that place yesterday.

A party of gentlemen secured plats and went to Emmons county Tuesday, while another party took their maps and guides with them to McLean county. They will all locate in this section.

City Council.

Council met at 9 o'clock last evening, present, Mayor Baymond, Aldermen Goff, Bogue, Wakeman, Slattery and Peterson.

Permission was granted Geo. H. Fairchield to remove the loose clay and broken brick from near the First National bank block and place it in Fourth street, under the direction of the city engineer.

A petition from property owners of the First ward, asking for street crossings, was recerred to the committee on streets, grades and additions.

A. T. Sherwood's request for abatement of taxes was further referred to the committee on Edgerly & Stoyell presented a petition for re-

bate of license in the cases of John Waldron, Wise & Goodkind and Eva Graham. The city clerk was authorized to draw warrants

for the payment of salaries of all salaried officers of the city for March.

Report of city clerk for month ending Jan. 31st was accepted. The following bills were allowed: Malloy & Stoyell, team at fire, People's

DAROTA'S WOBST FOES.

Under the above heading, a resident of Burleigh county, who has a well-cultivated and well-stocked farm, writes:

To hear the timid, balf smothered whispered question that is so frequently passed round in certain quarters, "Do you want to buy a claim, or do you happen to know anyone who does?" a question which is generally followed up by an assurance that the enquiring party knows of a good one that may be had for a song; one that has a good house on it, and has from five to twenty acres broken, which may be had all the way from thirty up to two hundred dollars, just as it happens to be near to, or far from the city or the railway track; in many cases the improvements being worth twice the money asked, we are led to ask the question, "Whatever could have induced such people to leave their homes in the old world, or in the eastern states, in quest of new ones in the far northwest?"

These would-be settlers are for the most part set of people, who from the very first were always innocent of any intention of becoming genuine settlers. Their only object in getting hold of the land is to make a big stake, on the first opportunity, and skip.

Were it not for the positive injury which this silly conduct inflicts upon those who would be only too glad to occupy the land in good faith, we might almost laugh at the ludicrous figures such people make of themselves by giving such obvious proof of how far they have been left by their would-be smartness, as is involved in the asking of the foregoing question.

If they sell dut as they are almost certain to do, they return home and give the country a bad name, or loaf until they are penniless, and then gladly accept service, probably on the very land with which they have so foolishly parted, they become laborers where they ought to be

How pleasant it is to turn from the study of these well-medited failures, to the many brilliant examples of success which meet us whichever way we turn. Happily they are so numerous as to make the few failures unworthy of a second thought, were it not for the fact that the failure of one makes a deeper impression on the generality of men than does the success of a hundred.

See that man driving that team, one which a king might be proud to sit behind. He has all the appearance of being, and in fact he really is a well-to-do farmer. Get into conversation with him about his first experiences as a settler. and he will tell you that six years ago he went onto his claim without money enough to buy a hog. And that warmly and elegantly dressed lady by his side less than four years ago had to count the potatoes before she prepared the meal, lest the few they had should be eaten before they could afford to buy more. Potatoes being all they had to live upon for days together. His well built house, well stocked farm, splendid team, buggy and wagons, for none of which does he owe one cent, are all but so many substantial trophies of the way in which himself and family met and overcame those trials and difficulties which are inseparable from settlement in a new country, accompanied by poverty.

It is such people as these who build up your new states. Their industry covers the dreary prairie with rich fields of life sustaining, gold bringing grain and gladdens the eyes of the weary traveler with the sight of happy, smiling homesteads, where the goddess of contentment, decked in her bright crown of bounteous plenty vies with the fair goddess of liberty in her efforts to gladden the heart of man.

Let every new settler remember that it is Uncle Sam's desire that such of his nephews and nieces who accept his gift of land should do so in good faith and not with fraudulent intent. Let those who are struggling to acquire these fair lands ever bear in mind the all important fact that the object of their efforts is a comfortable and enduring competency, and not a temporary, hunger satisfying crust. Let them strive for something that is worth the having, with all the prudence and energy worthy of the sought for object, and a complete success will be their reward.

As for your idle, would-be stake makers, they are as useless to the community as to themselves. Their failure in big stake making is or should be a timely warning to all who feel disposed to follow in their steps, for the success may in extremely isolated cases smile upon them, the odds are one hundred to one in favor of the most complete and i nominious failure.

The mention of Col. Louisberry's name in connection with the gubernatorial chair, meets with almost universal commendation on the part of the territorial papers. From them we select the following, from the Valley City Times: "The good work of the real true friends of Dakota's interests, i. e., the advocacy of the appoinment of Col. Lounsberry as governor of Dakota, is gathering strength and popularity. It is to be hoped that the president will recognize the fact that Dakota is not an infant, requiring the guardianship at all times of the federal government, but that she is a vast and growing empire, capable today of seif-government, and that instead of being compelled to go outside her almost limitless borders for a proper person for governor, we have among our own citizens the man capable to fill the position. Col, Louisberry is a Dakotan in every He is a gentleman of unquestioned honesty and undoubted ability, and will make a governor in whom the whole people repose explicit confidence. These requirements are needed in a governor, and where they are possessedb y a resident, who is in accord with our people, there seems no reasonable excuse for going outside of the Territory, for gubernatorial material. President Arthur can not do a more magnanimous or generous act than appointing to the position of governor of Dakota, a a Dakotan, and as Col. Lounsberry seems to be endorsed by our people as well as from other localities, it would seem that his appointment is proper and just."

VERMILLION REPUBLICAN: A SUCCESsor to Governor Ordway seems to be an all engrossing subject of discussion by those opposed to him. If a change is to be made, which we very much doubt, no name has been presented which we could more heartly support than that of Col. C. A. Louisberry, editor of the Bismarck Tribune. He is worthy and well qualified, and has many admirers in this part of Dakota.

WASHBU

Is the county seat of McLean county, one of the finest for agriculture in the wole northwest. The county lies north of Burleigh on the Missouri river and is being rapidly peopled with live, energetic farmers.

WASHBURN

Is about 40 miles north of Bismarck and lies dion the river bank at an elevation of seventyfiv to one hundred feet. It has one of the finest steamboat landings on the river, and is the distributing point for lumber and supplies of all k nds for an area of country equal to that of an ordinary eastern state.

WASHBURN

Is destined to become to the Missouri slope what Grand Forks is to the Red River Valley, the most important town north of Bismarck on the Missouri river. Live men have taken hold of the affairs of the town and propose to build up a town of which North Dakota will be proud.

WASHBURN

already assuming the dignity of a metropolis. It has three United States Mail lines, two of which have their headquarters at that point. These lines are as follows: One from Bismarck to Fort Berthold, one from Washburn to Villard and one from Washburn to Conkling. Other lines will be estab lished in the spring.

WASHBUR

ble. A member of the royal family has just Has the best Hotel accommodations in the Northwest. There are three hotels, one of which is not inferior to the best in Bismarck even. Among the other industries are the following:

A first-class Flouring mill, two General stores, two Carpenter shops two Blacksmiths, one Wagon maker, Telegraph office and a \$1,000 School building is being erected.

The finest Church in the northwest is also being built of the fine blue limestone found in this vicinity. The building is 30x55 and will be completed this season. Washburn has also a first-class brick yard, and a fine quality of lime is also burned at this point

WASHBURN

Has also a weekly newspaper, THE TIMES, edited by W. R Mazə The times is the official organ of the county and among the best conducted, enterprising newspapers in North Dakota.

WASHBURN

Has just been designated as the county seat of McLean county and a suitable Court House will be erected forthwith. McLean county has plenty of fuel. The river is skirted with a heavy growth of timber and in several places an excellent quality of lignite is found in unexhaustable quantities.

WASHBURN

Is the headquarters of the Washburn Coal company, in which several prominent Bismarck as well as Washburn people are interested. On all maps now being made by the North Pacific railroad, a branch line running from Bismarck northward through Washburn is indicated and there is little doubt but this road will be built during 1884. For permanent, sure and profitable investment, Washburn, therefore offers extraordinary inducements.

The town lies on a gentle slope towards the river and commands a view of the Missouri from ten to twelve miles in each direction. Ala though Washburn has just been made the County-Seat, the prices of Lots in the town will not, for the present, be changed, as it is believed by the owners of the townsite that this liberal policy of offering good inducements to those who will improve the property will result in the more speedy up-building of an important town. Nor a word can be said against Mr. La-Wall the nominee for city clerk, except the unfortunate fact that he is on the Griffin ticket.

Goff is gaining strength, and his election is almost an assured fact. He is the man for the place, and votes enough to put him there are already assured.

CAUSBY's crazy jumping from side to side has destroyed all confidence in his stability of character, and he won't get votes enough to wad a shotgun. His own friends admit this.

VIGILANT challengers will be at the polls on election day, and every illegal voter will be promptly arrested and jailed. A number are already spotted and will feel an officer's hand on their shoulders if they attempt to deposit a ballot.

THE supporters of the People's ticket are not shouting so loudly and boastfully as they did when their candidates were first named. Some pointed developments have opened their eyes to the fact that their chances of success have dwindled away in a very perceptible manner during the past few days. As they expose their principles and their aims, deserters constantly leave their ranks and come over to the right side.

Coon reflection is doing its work, and deserters | are hourly coming over to the Citizen's ticket. Every liw and order citizen in the corporate limits will vote it, and there can be no question but that they are largely in the majority. We want city officials who will exercise judgment of their dwn in managing city affairs not manakins who will jump only when their trainers pull the strings.

CAUSBY and Peterson having jumped both sides of the fence, and published over their own signatures, that they were both for and against the Citizen's ticket, the question now is are they men to represent the people of their ward? Do the voters of that precinct want men for office who have minds of their own? The convention last night put in nomination, Messrs. Essenberg and Van Houten. Intelligent voters which men will you choose?

THE TRIBUNE is indebted to Mr. Charles T. Fee, general passenger agent of the Northern Pacific railway, for a handsomely illustrated World." It contains graphic descriptions of the grand and beautiful scenery along the great road and in the Yellowstone Park, with pictures of the more noted spots. The trains of this road are daily crowded with passengers bound for various points, and it is safe to assume that the majority of them were induced to come west through Mr. Fee's thorough and inducious advertising of the advantages of the country. He paints these advantages in bright colors but does not exaggerate, and has a happy faculty of putting his language in a most convincing form. Mr. Fee is a treasure to the road, and the directors are to be congratulated on possessing his valuable services.

THROUGH the courtery of the publishers, Messrs, R. L. Po k & Co., the TRIBUNE has been placed in possession of a copy of their new Gazeteer and Business Directory of Montana, Minnesota and Dakota. It is a large book of 1,675 pages, is strongly bound and clearly printed, and will prove a valuable friend to every business man in the country. It contains the names of eyers business firm in the state and territories mentioned, and gives sketches of the more important towns. Every business man should have one.

New and Beautiful.

The TRIBUNE reporter had occasion to call on Dr. Bigelow yesterday to get him to use his influence with a rebellious tooth and either allure it back into the path of rectitude or snatch it from its na ive heath, and was much surprised to find his office dismantled and an air of gloom and silence hanging like a pall over it. The first thought which presented itself was that the doctor had become alarmed at the high water and had moved up onto the roof, but inquiry developed the fact that his enterprising spirit had got the best of him and had induced him to move into new and more commodious rooms in the Dakota Block. The reporter found him there and when he entered he stood and gazed in pleased astonishment on the beauty which met his eye. His reception room is fitted up in a manner fit for the proudest king that ever wore a royal diadem. The visitor is first struck with the artistic taste displayed in the coloring of the carpeting, upholstery and curtains. They blend with a pleasing harmony that charms the eye and impresses one with the thought that the selections must have been made by one possessing the critical eye of a true artist. The furnishings are rich and costly, but present an air of quiet, modest beauty that fascinates every one by their [attractive simplicity. A door leads from the parlor to the operating room, where every device which science has deemed necessary for the treatment of the seath can be found. In his practice the doctor has kept pace with the progress of his profession, and probably possesses the finest and most approved devices for the practice of dentistry in the whole northwest. Dr. Dr. pelow came to Bismarck in 1876, and has practiced his profession here ever since. Has fame as a skilled and competent dentist has gone abroad and patients seek for his services from far distant points up and down the road, and especially from the military posts all over the country. His success has been aimost phenomenal, which is due to the fact that he is a thorough master of his profession and that he exercises the utmost care even in the most simple and trivial work. The doctor did not authorize the announcement (in fact this notice will be a surprise to him) but the Tribune ventures to say that he will be pleased to have all of his friends call and inspect his levely rooms He is a courteous and obliging gentleman, and will extend a cordial welcome to all. With such exquisite pleasure to sit down in his chair and have an impudent tooth plucked gracefully from its lair. The doctor can be found at room No.2, Dakota block, up the first flight of stairs.

Young Mens' Convention.

A mass convention of the Young Men of Bismarch was held at the Court House Saturday. The hour for which the convention was called was 9 o'clock P. M., and at that hour it was found that the court room was in possession of a crowd supposed to represent the Griffin elements Mr. L. O. Wilson was elected chairman, and a Secretary was appointed. After proceeding thus far, the usurpers did not know what to do," and after waiting a few moments, declared the convention adjourned. The young men soon began to arrive in large numbers, and at 9:30 o'c'ock the convention was called to order by Harvey H rris. He stated that the convention was called by the young men of the city of Bismarck, who were not entirely satisfied with the two tickets nominated. The young men of Bismarck were here to nominate a ticket, and he beleived that harmony would prevail, and that a ticket would be nomi nat d that could be elepted and would receive the hearty support and sympathy of the community at large. With these brief, remarks, Mr. Harris proposed the usme of C. N. Hunt for chairman, and he was unanimously elected. On motion, C. C. Morrel was elected secretary. The convention being organized, Harvey Harris moved that a committee on nominations be appointed, and the chair announced as such committee, Messes, Haynes, Smith, Beebe and Whittaker.

The committee retired and in half an hour brought in the following report:

For Mayor-O. S. Goff

For City Treasurer—Geo. E. Reed.

Aldermen, 1st ward-F. J. Call, Jos. Dietrich. Aldermen, 2d ward-Dan Eisenberg, E. Van

Aldermen, 3d ward—#. P. Bogue, W. S. Moor-

For City Clerk-A majority for W. A. Wilson, a minority for Ed. Barrett.

For City Justice-A majority for Ansel Gray, minority for Jos. Hare

It was moved that the report be accepted and that the nominations for mayor and aldermen be made unanimous. The motion was carried and the nominations were confirmed one at a time by a clamation. The nomination of O. S. Goff for mayor was greeted by a few faint hisses from the Griffin gang, but rousing cheers soon drowned the demonstrations of disapproval and they were not again manifested. Each nomination was cheered in turn and the greatest enthusiasm prevailed when the nomination of H. P. Bogue and W. S. Moorhouse for aldermen of the 3d ward were made unanimous,

The majority and minority reports of the committee were then considered, and it was moved to make the nominations by a ballot of all members present. The chair appointed Messrs. Webster, Brady, Dow and Register as tellers, and a ballot was taken for city clerk with the following result: W. A. Wilson, 57; Ed. Barrett, 53; Ansel Gray, 1; Frank La Wall, 4. The nomination of W. A. Wilson was thereupon made unanimous.

A vote was then taken for city justice with the book bearing the title, 'The Wonderland of the | following result: Ansel Gray, 73; Joseph Hare, 45; Michael T. O'Conner, 1. The nomination of Judge Gray was made unanimous.

The following resolutions were presented and unanimously adopted:

Whereas municipal government is established as a means of promoting the greatest good of the greatest numbers within its jurisdiction and, whereas the admistration of the affairs of municipal corporation is a high trust conferred upon certain members thereof as representa tives of the whole body, to be employed in pro moting the general we fare and prosperity of

all its members: therefore,
Resolved:—First: That the officers of the
city of Bismarck should be sleected from the body of its citizens, only on account of their fitness for the places they are to fill and not on account of their affinity for any particular in-

dividual, location, faction, or calling. That the officers of the city of Bismarck are the servants of their constituents and as such should be held to a strict accountability to them for their official conduct.

Third: That in view of such accountability and as a means to that end, we deem it proper and reccomend that each respective of ficer of the city publish annually, prior to the city election, a full and detailed report of the affairs of his office and his doings therein. Fourth: That we present the names of the gentlemen now nominated in the belief that their election will advance the best interests of the city and bespeak an apright and economic-

al administration of its affairs. Fifth. That we pledge ourselves to work and vote for the success of the ticket now nom-mated and invite all voters of the city-who are in favor of the principles herein enunciated to join with us in so doing.

There being no further business a motion to

adjourn was put and cardied. A number of non participants present declared the above reported convention the most fair and hest conducted eyer held in Bismarck. Every question on which there was a division in senti ment was settled by an open ballot and fair count. Three Griffin men at intervals of a minute apart voted 'no" on the nomination of O.S. Goff for Mayor but this feeble and ludicrons dissent was all that marred the complete harmony of the convention. The young men have made very creditable nominations and with the exception of City Clerk and City Justice have endorsed the candidates on the Citizens, ticket. The young men have entered the campaign with a determination to make a fight to win, and it would surprise but few if they should succeed in electing their entire ticket.

Lignite Coal for Gas.

Mrs. H. A. True now in the city to negotiate for the establishment of gas works has conduct. ed a series of experiments to ascertain the value of the native Dakota coal as compared with the Pennsylvania hard coal, for the mannfacture of illuminating gas. He states that it is equal to any coal known for that purpose, except that it is not a cokeing coal. In the manufacture of gas, coke is as necessary as coal although it is used in comparatively small quantities. The amount of coke necessary to supply gas works for Bismarck could easily be shipped either from the east or west as it is manufactured from the coal at the Bozeman. mines. Everything else requisite to the manufacture of the best illuminating gas is at hand, and there would be little expense incurred in the shipment of material

Much to his surprise he was grasped by the hand by the man who had just dropped dead on the stage, and was further embarassed at finding that the cheeky reporter was a rather bashful young man."

THE SEASON'S OUTLOOK.

The immigration to northern Dakota this season promises to be wonderful in its proportions. Already settlers are flocking in by every train, but as yet but the vanguard of the great army of homeseekers has made its appearance. The fame of this wonderful wheat belt has penetrated to every portion of the civilized world, and everywhere it has elicited inquiries and caused the advantages of the country to be investigated, and as a result our broad prairies and sloping hills will be thickly peopled ere the snows of another winter robe the earth in a mantle of white. The people who are pouring into our favored section are not idle adventurers. They are the bone and sinew of the land-strong, hardy, industrious farmers who will till the virgin soil and draw from its rich bosom a wealth of golden grain. They come with their wives and families and all they hold dear to build up for themselves homes in the new wonderland, and here they will locate and enjoy the manifold blessings which await all who seek them.

Many brilliant word pictures of the beauty and productiveness of North Dakota have been east adrift by gifted writers, and yet the subject has never been depicted in false or exaggerated colors. Too much cannot be said of the advantages which we possess, for they are unpar: I lled. The richness of our soil has become proverbial, and our delightful climate, sunny skies, freedom from cyclones and destructive storms, close proximity centers, and, above all, the to market great superiority of our celebrated "No. 1 hard" wheat are themes to which no pen can do justice.

Seeding is progressing rapidly, and a very large area will be sown, mostly in wheat and dats. On every farm a spirit of pushing activity prevails, and the bright and radiant faces of the farmers vividly reflect their great faith in the outcome of their season's labors. The season here is several days in advance of that of other localities, in many of which seeding cannot be begun for some time on account of the snow. The advantage thus gained by farmers is of inestimable value, and is the leading cause of the preference shown for lands near the Missouri valley.

Everything points to a season of great thrift and prosperity, not only to the farmers, but to the business interests of the various towns. The activity already noticeable in all branches of business is gratifying, and is but an augury of what is to come. North Dakota's star is in the ascendant, and will soon reach the zemth of fame and fortune.

An inquisitive friend of the People's ticket wants to know how long Mr. Mal lanney, the candidate for alderman in the Second ward on the Citizens' ticket, has been a resident of the city, and intimates that his feet are too temder, as yet, to accept aldermanic honors. These are the sort of boomerangs the friends of Mr Mallanney wish to throw out. It has come to a pretty pass if a certificate of "old-timership" must be had in order to have a voice in the affairs of the city. Mr. Mallanney has been in Bismarck over a year. He came here to stay, and invested every dollar be had in Bismarck property. If his interests are not here, where are they? He is the possessor of 150 lots in the city of Bismarck, and to him is due the credit for the erection of one of the finest brick blocks in the city. He gave \$1,500 in cash towards the capitol building, and has been commendably liberal in all respects. Can many of the old-timers show up a better record? What did such men as L. N. Griffin do to relieve the bondsmen who so confidently presumed upon the support of their friends and boldly guaranteed the \$100,-000 for the capitol to be forthcoming? Nothing. The enhancing of values, consequent to the location of the capital at Bismarck, made Griffin richer by \$25,000 than he was before, yet not one cent would he give towards securing the prize. Who has the interests of Bismarck at heart the most, the one-year-resident, who invests his all and comes to the front with hand and purse in all matters of public concern, or the miserly old-timer who, after a residence of ten or twelve years, cannot by the voice of a majority of reputable citizens and taxpayers obtain a seat in any representative body? This talk about the incapacity of the "tenderfoot" is the veriest kind of bosh. The record of most of the newcomers is one of which they may well feel proud, and in comparison to which the record of many old residents would be ignominious. It will

be unfortunate for Bismarck if this feel- next member of congress, ing on the part of the older residents against the newcomers continues. It takes people to build a city, and every newcomer should receive a hearty welcome. Be it said to the credit of the majority of the early settlers, however, that this distiction is not generally countenanced. Scores of men have come to Bismarck during the past two years, who are doing as much for the city as those who came before them. They are putting money into buildings and enterprises of public concern, and are in everyway entitled to the greatest respect and consideration.

THE receipt of a copy of the boom edi-

tion of the Tribune moved the Newark, N. J., Advertiser to pay our city this neat compliment: "The settlement and development of new states at the west are among those remarkable features in the extension of the United States that can hardly be realized at this distance. Some of these states possess an area equal to Switzerland, Saxony. Bavaria or Belgium, yet they form themselves into self-governing communities with as little effort as the creation of a village or the starting of a factory. Dakota, one of the fairest of the future sisterhood, sends us greeting through an eight page daily paper published at Bismarck, the capital, which stands where, twenty years ago, was only east bank of the Missouri river, in the centre of the territory, and on the direct line of the Northern Pacific railroad. There are few territories more promising than Dakota, and no young city that is making such strides as Bismarck. It is being built up in brick and stone and already possesses some magnificent business blocks, with private dwellings that tell of opulence and taste. The crowning glory of the place is the new state house, now in course of erection, and an engraving of i which lies before us, shows a building in good architectural taste with all the conveniences of the s'ate house at Albany, without that extravagance and meritricious orrament which speak of vanished millions and nothing useful to represent them. Out west when they project an improvement the money is provided in advance and then they fix a time when the work is to be done. The new state house is to be ready for occupancy in June of this year, and the city water works, the machinery and iron pipes for which must be transported from the east, will be done in July. They are talking of street railways, the electric lights, and other comforts, and they have taken ample means for education and for the care of souls as far as churches can accomplish it. It is notewo: thy that the most prominent building next to the capitol, and in sight from it. is the penitentiary. We regret that such an institution is necessary, but as it is, it is to be hoped that Dakota justice is as swift and sure as it is in New Jersey."

THE nomination of Mr. Mallanney for alderman in the Second ward will meet the approval of all the friends of the Citizen's ticket, and the citizens of that ward generally. The names of Messrs. Eisenberg and Mallanney are endorsed on the Citizens ticket for the reason that the original nominees in the second ward have withdrawn from the ticket. Thes gentlemen are in every sense representative business men. Mr. Eisenberg is one of the oldest settlers in Burleigh county, a heavy tax payer and conservative business man. Mr. Mallanney came to Bismarck last season, but at once established himself in the capital city. He was largely instrumental in the organization of the new Merchants National Bank and the building of the magnificent three story brick building on Fourth street. It is such men a these who should handle the affairs of the citymen who succeed in life on business principles.

THE young men will make a strong fight for their ticket. It differs only from the citizen's ticket in the nominaoffice, is an excellent young man, thoroughly reliable and capable, and has a strong element at his back. Although he has two opponents in the field, he has as excellent chances for a majority of the votes, if those who now encourage him, stand by him to the last. In Judge Gray the young men also made a selection that meets the approval of many, especially among the new comers. Mr. Gray is said by those who know him best to be a very accomplished gentleman and one who would make a good justice. He was formerly of the Wisconsın legislature and passed through and came out of the rebellion with an honorable record.

MINNEAPOLIS has redeemed herself in the recent election of Geo. A. Pillsbury as mayor, to succeed the notorious "Doc. Ames" who carried his "wide open" policy so far as to seriously injure the city's interests. If Minneapolis should now tender Hon. Loren Fletcher the nomination for congress and give him a unanimous vote she would still farther win the respect and good will of outside communities. The nomination of Mr. Fletcher would win for that district the approbation of the entire northwest, where he is universally known as one of Minnesota's representative citizens, and the most successful and untiring worker for northwestern interests. national convention and Mr. Fletcher the see you here."

Minnesota will cover herself all over with glory, and can have anything that she asks.

A rew days since, at Fremont, Ohio the mayor who was elected on the temperance ticket, got on a roaring drunk and painted the town a very bright red. Ex-President Hayes was called upon to attempt to restrain him, but the mayor knocked his cherished plug hat from his head, kicked it into the street and referred to his late excellency as an old tallow candle," and "a bonanza Dakota farmer."—The boozy official then rushed to the court room, called the judge a liar and frightened him out of sight, drove the jury out of the box and tore up things generally. He finally cuddled up in a snow drift to woo the drowsy good and was captured.

In the quiet and peaceful west, it is hard to believe that such lawlessness can be tolerated, even in the wild and reckless east, and it is surprising that the vigilance committee didn't turn out promptly and necessitate the calling of a special election by roping in the mayor and ornamenting a telegraph pole, with him. They frequently do lynch people back there for less serious offences, and bloody riots often result from very trivial matters. There is a bad state of affairs in the east, and we often feel like going to church and giving special thanks that the primeval wilderness. It is on the we are permitted to live in a land of peace and quietude, away from these

scenes of lawlessness and disorder. THE Jamestown Alert is one of Col. Lounsberry's most active supporters. In a recent issue it says: "The Alert has reliable information that Col. C. A. Lounsberry is supported for the governorship of this territory by the solid congressional delegations of Minnesota and Michigan, and the endersement of Senator Dawes, of Massachusetts, together with that of several other influential members in the east. There is certainly no other man who has received such universal and earnest support from the press of this territory a compliment to his ability and integrity, an evide ce of esteem by his fellow citizens, which certainly cannot be wholly disregarded by the president. The harmony of the republican party in the territory, together with the collective material interests of our citizens in a united effort for the development of our varied and prolific resources, demand the appointment of a man who would reconcile all discordant elements, and Col. Lounsberry is preeminently such a man."

A THRILL of life is shooting through business channels in Bismarck, and our streets are filled with strange facesfaces of eastern people who are here to secure land. Business enterprises in various forms are being projected and manufacturing interests are being discussed by persons who mean business and who will take advantage of our favorable location and transportation facilities to push their ends. While we do not expect or wish for a crazy boom, we can confidently predict for our city a large, healthy and substantial growth during the present year.

Jupge Hare will likely be again elected city justice. In that capacity Mr. Hare has acquitted himself satisfactorily to the people generally. Perhaps he has made some mistakes in his rulings, but never has his position been used to do a man an intentional and unjustifiable harm. Those who know Judge Hare best know that the influence of the strongest friends he has could not change his convictions of justice after having heard the testimony, and that to try to influence his decisions, except by logical argument, would be useless.

It must be gratifying to Mr. Reed to know that the people of Bismarck so generally endorse his career as city treasnrer that no opposition is raised from any most respectfully but carnestly called to this quarter to his re-election for another glaring outrage. term. Mr. Reed is the first treasurer the tions for city clerk and justice. Their city has ever had who has collected the candidate, Mr. Wilson, for the former taxes with impartial promptness. He has been a good officer.

From the Jaws of Death.

An emigrant named James O'Neil, who was delayed in this city, by the recent gorge, took advantage of the situation by getting most helplessly drunk. He started out on his capital pilgrimage as a decorater, and from the color of his nose, it was plain to be seen that under favorable circumstances he could do an excellent job in the way of painting the town red. After two days of dreamy joy under the influence of the "flowing bowl," he doubled dosed and became completely paralyzed. Last evening, just as the switch engine was crossing Second street, two men who were walking near the track observed the form of a man on the track a few rods ahead of the approaching engine. The men rushed to the track and jerked the helpless sleeper from his swfut bed. No sooner did they pull him from the track than the engine went grinding over the rails, and but for their timely appearance the dec rative artist of the invincible emigrant legions would have followed the star of empire, no more forever. He sobered up sufficiently to resume his westward journey on the passenger train which was several hours late. Another mortal snatched from the jaws of death, out of the mouth of hell.

The Glove Contest.

A crowd assembled at Proctor's hall Wednesday evening, to witness the advertised glove contest between J. B. Lilley, of Ft. Lincoln, and "Red" Gleason, of this city. Gleason failed to come to the front, and a man whose only known name to the reporter, is the "Mandan Tough," volunteered to meet Lilley with the gloves. At 9:30 the amateurs in the manly art stepped upon the stage and gave the conventional "shake." During the first three rounds, the Mandan Tough resorted to Tug Wilson's tactics, and escaped the punishment of the blooming Lilley. In the fourth round filley succeeded in getting in some telling blows and knocked the "Fough" all over the stage. The contest was simply a friendly spar with soft gloves, and had none of the brutal features, of the prize fight. Proctor_acted as second for Lilley, Fred Metford for the Mandan man and Mr. Holleran, referee; Peter Sharpless, time keeper.

Mr. Geisc has been a railroad contractor for some years, and after traveling over a great portion of the union, finds no country so promising and inviting as the Missouri valley. Five young men arrived from Ohio last evening to join Mr. G., bringing teams with them, and are prepared to locate and begin work at once. A Destructive Cyclone. MUNCIE, Ind. April 2.—A cyclone struck Henry and Blackford counties, five miles south of Muncie, last night causing a loss of life and property. In the town of Oakville of two hundred inhabitants only two houses are left. Three wemen and three men were killed and fifty wounded, many dangerodely. Two of the women killed were carried half a mile by the storm and deposited in the woods. A great number of horses, cattle and sheep were killed. It is believed the loss of life in the country has been considerable. The track of the cyclone was a quarter of a mile wide and devoured everything in its course. The following are the killed: Mrs. Anna

Dearmond, widow, aged 30; Sosan Hiles, 15. When discovered she was in an almost nude condition, her clothing having been literally blows from her person. The babe of C. C. Johnson was found in a field one hundred and fifty yards from where the bouse stood, with its head crushed, and the baby of Charles Brown was injured. Turner Johnson, 12 years old, was blown twenty rods, and his skall crushed. He will probably die. Nancy Myers, sixty years old, arm broken; Samuel Myers, aged thirteen, arm broken John Hoffman and wife, badly bruised and otherwise injured; Jeff Hoover, engineer at a saw mill, leg broken in two places and jarred internally, will probably die; Jeff Miller, hips dislocated; Mrs. Miller, badly bruised; Fred Coldstoc , of Shelbyville, three ribs broken; widow Hiller, a bad cut in shoulder. Fifteen others were more or less injured. Among the houses crushed was that of John Sullivan, in which was himself, wife and six children, the youngest a babe two weeks old. Most muraculously, none of the family were injured. The babe was found in bed, covered with debris, but unscratched. In the path of shedding of blood is not yet ended, but will the storm for five miles east and w st of the village the damage is equally great. Every farm Mayor Stephens and Governor Hoadley; the passed overwas made a perfect wreck, barns, first two for mismanagement and the latter for houses, orchards and forests bei g blown down and the fences leveled to the ground. On the farm of James Saunders, four miles east of in the strongest possible terms of condemnation Middleton, his house and barn were completely of Sheriff Hawkins for calling on the militia, destroyed. Sunders who is a merchant in Middletown, but wno was out of the place at the time, and had taken refuge in the barn, was instantly killed. At the town of Murray, a family of eight persons had their house blown to splinters and the father, William Lines, kriled, the other- escaping uninjured. W. Frank painter, four miles west of Oakville, while out at his farm, was caught by the storm and instantly killed. The condition of the citizens of Oakville is terrible. Without homes, clothing, food or bedding, they were found standing in a cold blinding snow storm or shivering in a few fireless houses that yet remain. People more fortunate, have thrown open their houses to the suffering and are making arrangements to feed the hungry until such time as they may be able to sustain themselves.

STORM AT PITT-BURG.

Pittisbung, April 2 -A terrific wind and hail storm passed over the city this forenoon, doing from Columbus. These regiments have been on great damage to property. Seve demolished and a number of persons injured by falling chimneys and flying timbers, seven fatally.

PITTSBURG, April 2.—By a cyclone which passed over the Monongahela valley this morning, property was damaged to the amount of several thousand dollars, and twenty one persons were injured, four probably fatally. The sun was shining orightly at half past 9, and a few minutes later the sky became overcast. Rain commenced falling and there were flashes of lightning and loud peals of thunder. A terrific gale followed, which leveled fences, wrenched signs from their fastenings and demola ished several houses. On Twenty eighth street a frame house was completely demolished, and on Wylie avenue the roof of the residence of Wm. Rasinberg was blown off and a brick partition overthrown, burying Mrs. Rasinberg, Fannie Skaalkin and baby, and iajuring them so severely that it is doubtful if they can recover. A large sign was blown from a building on Fifth avenue and struck a boy named Paitzel and slightly injured him. Several other persons were hit by the flying debris, but were not seriously hurt. The most serious damage in the city was at Oliver B. Roberts' wire mills, which were completely wrecked. A building 200 feet square, and almost entirely of iron construction, which had not yet been roofed, and on which about 100 men were engaged putting in engines, was struck by the storm and rent in twain. The heavy iron girders fell with a crash and the men scattered pell mell, seeking places of safety. All but six escaped uninjured, and only one of these, Wm. Lacey, was seriously hurt. He was caught and crushed down by an iron pillar and will hardly recover. The storm continued its course along the south side of the Monongahela river, sweeping small outhouses and fences from its path until Homestead, Pa. was reached, when it seemed to gather new force. A frame house owned by Evan James was blown down and six men working on the building wers more or less injured. The carpenter shop and shoe shop adjoining were crushed by the falling timbers and two cobblers were hurt slightly. In another part of town a frame house owned by John Randolph was lifted from its foundation and carried some distance, but miraculously as it may seem, the family escaped uninjured. The dwelling of Mrs. Eccles was next struck by the gale and was badly damaged. | The storm passed up | the valley, but so far no other damage is reported.

The Barricades Removed.

CINCINNATI, April 2.—The barricades in the streets about the courthouse were removed today. Only a few soldiers are pacing the sidewalks around the courthouse for the purpose of preventing venturesome persons from entering the dangerous structure. The entire military force has been withdrawn, except the Seventeenth regiment, which has orders to remain until further orders. INDIGNATION AGAINST THE MILITIA. Only the hopelessness of a conflict with a powerfully armed force prevents an attack upon it. Newspapers usually conservative speak with great freedom today on the situation as it now is. The Valksblatt (German) says: "The calling of the militia on Friday night can only be characterized as a grave mistake. If reliance had been placed on the police force, order might probably have been restored without loss of hie." The Free Press (German) says: "The indignation of the people is on the increase on account of the rough and

It blames Sheritt Hawkins, not coming here to see for himself what the situation required. He says: "Sheriff Hawkins gave the orders in the words 'Give it to them, hoys?' and in the excitement I could not stop them, so I cried, 'For Christ's sake, boys, fire high!' ORDERED HOME. CINCINNATI, April 1.—A portion of the soldiery is being ordered home; the 180th and 148th regiments from Hillsboro and Columbus respectively, including the independent companies of governor's guards and Duffy Riffies, colored, continuous duty three days and nights at the courthouse and jail, defending the barricades, the most dangerous points and also the object of attacks by the mob. Before starting to the depot the troops were drawn up in line before the jail and a highly congratulatory and commendatory dispatch from Governor Hordley was read to them. The governor spoke of the dangerous position they had defended, and of the bravery shown by the officers and men, and thanked them heartily for the soldierly manner in which they had responded to the call and discharged their perilous duties. The troops remaining in the city are not yet on active duty. The 1st, 2d, 5tb, 15th, 16th and 17th, together with the batteries, will take the places of those ordered home and will themselves gradually be returned to their respective homes. The courts have been reestablished in the public library buildings Copies of pleadings will be substituted for the originals on application the court. other facts involved. Several suggestions have

been made looking to the better administration

CINCINNATI, April 1.—The municipal reform association, composed of citizons of all parties, have issued a manifesto to voters of the city, stating that they believe that the occurrences of the past few days more than ever demand a severance of party politics and municipal (government) and also stating that they would place in nomination for the various offices to be filled at the approaching municipal election, men of irreproachable integrity and undoubted qualifications for positions who have consented to accept nominations merely from consideration of public duty. They are selected without regard to political views, and all good citizens are called upon to unite with the association in their attempt to place pure and reliable men in charge of the city government. The association has determined to call a mass meeting at Music Hall soon to ratify their action.

Temporarily Off.

JAMESTOWN, Dak., April 1.—A lady passenger. accompanied by her little boy, on the west bound train today, suddenly became deranged between Faogo and this place, and when the train stopped here she put her head against the car window, breaking out the double glass and cutting her face severely. She was taken from the train and is now being cared for by Sheriff Mo-Kenchie. Her name is Mrs. Dyke, from Middleton, Ohio, and she and her little boy were on the way to visit her mother in Portland, Ore., Dr. Tharald pronounces her insanity only tem porary, and thinks she will be able to resume her journey in a few days. She is a lady of good ar pearance, about thirty years old.

War in Texas.

GALVESTON, Texas, April 2.—The News' Denison special says: Rumors have reached here of a battle amongst cattle men in the northwest corner of the county, near Cedar Mills. During the winter the stock drifted from one side of the Red river to the other, and in the spring round up the Indian nation men are said to have stolen a large number of cattle belonging south of the are killed outright.

Too Much Morphine.

Topeka, Ks., April 2.-Mrs. Gussie Drumer, who recently came here with her husband from Minneapolis, Minn., died today from the effects of an overdose of morphine administered by her own band, probably with suicidal intent.

The Alert Commander.

SAN FRANCISCO, April 2.—Comander Coffin, U.S. N. left this afternoon for Washington to assume command of the Alert of the Greeley relief expedition.

Minneapolis Election.

MINNEAPOLIS, April 1.—The election for mayor today has been exciting. Bands of music paraded the streets all day and conveyances of all kinds carried voters from all parts to the in the city has been polled. Indications point to the election of Pillsbury, republican, over Ames, democrat and present mayor, by about 3,000 majority.

Another Cincinnati Murder.

CINCINNATI, April 1 .-- Another murderer is in custody and may be expected at the jail today. Nash Lightbest, (colored) yesterday during a quarrel with Hugh Taamey, driver of a cart employed on the dump of the Cincinnati Northern railroad, struck Taamey on the head with a shovel and from the effects of which Taamey died today. Lightbest was arrested. The act was unprovoked except by words.

Another Victim of the Empty Pistol.

PORTLAND, April 1.-A highly accomplished daughter of Hon. M. H. McCoy, residing at Lookingglass Creek for twenty years, was accidentally shot to-day. Her little sister playfully pointed a loaded pistol at her, when the weapon was discharged. The ball entered her temple and passed through her brain. She never spoke after the shot was fired. The dreadful tragedy has driven the parents nearly insane.

Servedhim Right,

CHARLOTTE, N. C. April, 1.-Frank Elliott, colored, who committed a gross assault on a young woman in York county this forenoon, was brought to Rockhill this evening. When leaving justices court for York juil, the people overpowered the sheriffs posse and took Elliot and ran to just outside the corporate limits and hanged him. On his body was a card: "Our daughters we protect."

Fatal Shooting.

Sr. Paul, April 1.-L'oyd Porter, of Chicago, shot and fatally wounded John Nary, proprietor of the Jackson Street saloon. Porter had been ejected from the saloon earlier in the evening for noisy conduct, but returned later and got into a quarrel. The shooting was the result.

Bound for the West.

PITISBURGH, April 1.—A colony of 25 families left Pittaburg today for Seattle, Washington Territory, for the purpose of making it their f stare home. Foreign immigration is crowding them out of the trades, giving employers an opportunity to reduce wages.

Canucks on the Move.

ST. PAUL, April 1.-This morning's train of the Manitoba line took out for points north of Barnesville seventy-five passengers. The ticket department has advices of a large number of Canadian passengers to come from Toronto,

Cyclonic.

O'INCINNATI, O., April 1.—A Fort Wayne dispatch says: The village of Oakville, between Muncie and Newcastle, was swept away at 5 p. m. by a cyclone. Several lives lost. No particulars.

Another Hanging.

CHARLOTTE, N. S., April 1.-Monday night a masked mob surrounded the jail at Dallas, Gastor county, and overpowered the jailor and took out Edwin McCullough and hanged him.

En Route Home.

SUÁRIM, April 1 —General Graham and troops ave sailed for Suez.

THE TRBBUNE has been asked the question. "Why this distinction between Bogue and Griffin, both being saloon men?" Mr. Bogue's record as a member of the city council shows him to be a fair minded man. He listens to arguments and his conclusions are usually in the right. His opponent for alderman in the third ward, Mr. Griffin, is of the rule or ruin disposition. If he cannot control the council he does not attend its meetings. This is the reason of his absence for the past six months. Mr. Moorhouse, who is running with Mr. Bogue on the citizens ticket is one of the leading business men of the city, a man of more than ordinary ability and one who will certainly represent the citizens of the third ward honestly and creditably.

THE river traffic this season promises to be very heavy, and unusual activity prevails in steamboat circles as the vessels are being put in shape to begin act-We operations. New boats will be brought up to assist in transporting the immense volume of freight now en route from the east. The steamboatmen are greatly pleased over the prospects of a busy

An article is going the rounds of the press to the effect that the Marquis de Mores is the editor of a newspaper in the Bad Lands, but it is incorrect. The marquis is content to worry along as a stock king and a man of wealth, and it is but justice to him to say that he has never had any aspirations to fill the great and exalted position of an editor.

A Large Audience and Lots of Fur "Although a strong attraction was playing the other house the same evening in direct op position, this southern drama was presented a Crowther's opera house last night to a fashions ble, and with one exception, the largest audi ence of the season. It is safe to say that ever one present was highly entertained. The brigh star of the cast is Fannie Francis, whose goo looks and charming acting captivated the audi ence. Her ch racterization is original and refreshing, and she makes it interesting for every body on the stage as well as off from the tim of her appearance as Archie, the Newsboy, unti her graceful little speech at the close as Capi tola Le Noir, the beiress. Wool, 'a gemman o color,' by Billy Robinson, was particularly popular with last night's andience, and is an excellent and favorite artist in his role. The play is long, but it is doubtful if may in the audience found it tiresome. The Hidden Hand by this company will always be welcome here. -Topeks (Kan) Daily Capital, Oct. 22, 1882.

This fine company will appear in our city for three nights only, commencing Thursday evening, April 10, at the Athereum. Secure reserved serts in advance at Frisby's and avoid the rush at the doors.

The advertising material, printing, etc., of Whiteley's "Hidden Hand" company, who appear at the Atheneum next Thursday evening, is without doubt the finest and most attractive that has ever been displayed in our city, and the company is unusually lavish in using it,truly believing that printers' ink, judiciously and extensively used, is always a good paying investment. The company have been having wonderful success everywhere, crowded houses nightly being the rule, and it is eafe to anticipate their en gagement in our city will be an unusually good

Friday Bartley Campbell's romantic play, The Vigilantes. Saturday a grand double comedy bill of The Little Rebel and Muldoon's Picnic. We predict a successful engagement for the company in this city.

The Sims Excursion.

Arrangements have been made for a reduction in fare from Moorhead and all intermediate points to Sims, on the 10th instant. A free train will be run from Bismarck and people along the line as far east as Moorhead will secure return trip tickets for one and one fifth fare. Next Thursday promises to be a gala day for Sims, and several hundred strangers are expected to be present. It will be an opportunity for Bismarck people to see the promising little city free of charge and all should take a run out to witness the manufacture of brick and terracotta and look at the substantial brick build—

A Query.

BISMARCE, March 30.

Editor Tribune -Will you kindly allow me to ask a few questions in your paper? Who is responsible for the Bismarck section of the Northern Pacific railroad, and why is at he has not ordered a waiting room to be built at the station? This was one of the first wants that I experienced when arriving here some time ago after a long and tedious journey, when train after train arrived and could travel no further because there was a Mandau to be passed and I have no doubt that if one of the directors walked up and down the platform among the bewildered passengers and heard some of their remarks on this and other matters, Bismarck would not be long without a station house and waiting room as any place so central and free from floods must command the unbiased attention of any casual observer. As it would be some fifty feet above the level of the river, this would be most necessary for the accommodation of the weary passengers who desire some place in which to leave their families, while they look for permanent accommodations.

Yours Respectfully. A NEW SETTLER.

In answer to the above the TRIBUNE will state that the officials of the North Pacific at this point, under the management of Division Superintendent Graham and Agent Davidson, have labored strenuously for the comfort of all emigrants and passengers, and while the depot and waiting rooms are not adequate to the demands of the city, no suffering resulted from the late floods.

C^{OUPON} MORTGAGE DEEDS.

Story of a Wreck.

H. F. Douglas returned from New York Saturday evening and related to an eager audience the details of the railroad accident through which he recently passed. He states that there was no obstruction on the track, but that the locomotive exploded while running at the rate of 40 miles an hour. The engineer, who had been in the service 28 years, was blown 400 feet and instantly killed. The car next to the locomotive passed completely over its wreck and other cars including the sleeper in which Mr. Douglas was sweetly snoring went tumbling down a 30 foot embankment. The car alighted on top of the prostrate engine, the drive wheels of which came crashing through the sides uncomfortably close to Mr. Douglas' berth. Fortunately none of the passengers were killed, but Mr. Douglas still wears a scar which gives testimony to the bruises that he received. With nothing on but an abreviated and unmentionable garment he managed to crawl out of a window and for two hours was busily engaged in hunting his clothes and picking powdered glass out of his hair. He was the second to escape from the wrecked car, and upon emerging found everything dark and as still as death. At first he thought everyone but himself had been killed, but upon calling out was greeted with responses. He was also of the impression that the car had fallen through a bridge, and in jumping from the window struck ont as if to swim, but instead landed in a bank of soft clay that in the night time appeared like water. The last person removed from the car was an old lady weighing about 250 pounds. She was urged to hurry out as there was danger of the car taking fire, but coolly replied: "I ain't coming out of this car until I get my corsets on."

Queen Victoria Bereaved.

LONDON, March 28 .- Prince Leopold, fourth and youngest son of Victoria, died suddenly at 2 o'clock this morning at Cannes. The queen received the news of the duke of Albany's death this afternoon. She was profoundly affected. The prince died in a fit as he was on the point of starting for Darmstadt to attend the wedding of his niece, Princess Victoria of Hesse. The prince of Wales was visiting the earl of Lefton, and received the news on the Aintree race course. He retuned at once to London. The horses "Spectrum" and "Collander' were weighed for the race, but the duke of Montrose and Sir George Chetwyn refused to run them. Marleborough house is besieged with people calling to express their condolence. Sir Henry F. Ponsonby, private secretary to her majesty, telegraphs from Windsor to the London bureau of the associated press: "The queen is very deeply distressed at the terrible news, but has borne it as well as could be expected." Major General Sir John Cowell, master of the queen's household, proceeds at once to Cannes to bring the Duke of Albany's remains to England. The curfew bell at Windsor castle was tolled at 7:30 this evening. The blinds at Buckingham palace are drawn. The Duke of Albany had gone to Cannes only a few days ago for the sake of his health. Nothing serious was anticipated. looking fairly well and had been taking part in the festivities of the place, but he had a severe chill which may have been the cause of the fatal fit. Neither the queen nor Princess Beatrice will attend the wedding of Princess Victoria, of Hesse. Gladstone is most affected by the duke's death. Granville, foreign secretary of state, announced the death in the house of lords. THE NEWS AT OTTAWA.

OTTAWA, Ont, March 28.-In consequence of the death of the duke of Albany, received this afternoon, the party and dinner at the government house on Saturday will not take place. The union jack is at half mast.

The Queen's Bereavement.

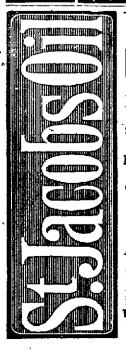

LONDON, Mar. 29-The prince of Wales has gone to Cannes to accompany home the remains of his brother. The meeting of the Queen with the Duchess was most affecting. As she entered the park she was unable to restrain tears at the sight of her son's desolate home. She was weep-ing bitterly ween she met the Duchess. Telegrams of condolence were received from the president of France and the emperor of Ger-

Decision on the Harper Law.

CHICAGO, Mar. 29 .- The Supreme Court of Illinois has decided that one hundred and three saloon licenses granted by this city prior to the time that the Harper state law went into effect, are valid. By this ordinance the city defeated the operation of the Harper law under which the minimum license is \$250 dollars for eleven, months. If the supreme court had declared the ordinance invalid it was expected that the effect would be to turn into the treasury more than a million dollars.

A Boston paper says: "An Irish lawyer at Bismarck, Dakota, having addressed the court as "gentlemen," instead of "your honors." after he had concluded a brother of the bar re minded him of his error. He immediately arose and apologized thus: "May it place the coort, in the bate of debate I called yer honors gintlemen. I made a mistake, yer honors. I know more law than anybody, but, yer honors, my parliamentary etiquette is at toimes so overshadowed by me grea-a-a-a-at knowledge that it escapes me sight. I|beg the paardon of the coort."

PHILADELPHIA Call: It has been discovered that a citizen of Cincinnati, who fell dead in a railway car the other day, was poisoned by tobacco smoke. The other men in the car must have been smoking the kind of eigars that advance agents give to editors.

Paris, March 5, 1884.

D. BISMARCE TRIBUNE -- Having just returned to Baris from a two months' trip through southeris France and Italy, I will give your readers a Fambling sketch of what I have seen. My first top was at Marseilles, one of the largest and most important cities in France, and the greatest seaport on the Mediterranean. It is finely situated on a beautiful bay, which is filled with ships of every description, and from all nations save ours, although there is a good line of French steamers running direct from here to New York. A delightful drive skirts the bay for several miless where many handsome villas and palaces are to be seen. The semi-tropical foliage of the palm and cactus is first seen here, but not in the luxuriance seen at Nice and vicinity. I visited the famous chateau d'If in the bay, where the story of Monte Christo was founded. The prison or fort is entirely deserted, except the keeper and his family who show you around for a few sous. The view from here is magnificent, the blue and purple colors of the sea being very pretty. The trip was made in a tub-like row and sail boat combined, whose seaworthiness looked a little doubtful, but as the poor fellow had to row most of the time for five hours we thought he well earned the five france we paid him.

We made short stops at Torilow and Cannes until we arrived at Nice, where we remained two weeks at the most delightful and

WORLD RENOWNED WINTER RESORT. The climate here is very even and temperate and the rainy days are as scarce as in July in Dakota. Frosts are scarcely known. A high range of the Alps shuts off the north winds and the warm sunshine and gentle breezes from the Mediterranean, together with the luxuriant tropical foliage, the orange and lemon trees loaded with fruit, the magnificent and beautiful roses and flowers, which have no rivals anywhere, make this as near paradise as probably can be found on earth People from all nations, who can afford it and have the lessure, come here to enjoy i. Probably the largest number come from England, but a good many Americans are to be found. It is one vast city of hotels, many of them very large and finely kept. You will also find stores here equal to the hest in Paris, and for amusements there is no lack, from the Italian opera down to a Spanish bull fight, and variety show of no better order than Whitney's old show in its balmy days.

THE BULL FIGHT is a kind of a show affair. They do not allow them to kill the bull but they prick him up and stick his full of goaded rosettes, shake red cloaks at him until he makes it pretty lively for the boys and they jump the fence quite often and leave him master of the ring. They bring out several different bulls but the performance is all the same and gets a little monotinous after the first round or two. One of the great events are the races here. They are entirely different from ours as they make the horses jump hedges, ditches and stone walls. It is quite a novel sight to see them all leaping the difplaces about the same time. Accidents are very common. I saw one jockey thrown from his horse but he was not seriously hurt. They are having an exposition or kind of world's fair at Nice this winter. The ground building, and some of the displays are quite handsome but it is not much of a success. One of the greatest magnets and and attractions of a large number is the great gambling casino Monte Carlo near here. It is in the small principality of Monaco covering only a few acres, and derives nearly its entire revenue from gan bing. The prince is now a partner in the concern, but formerly granted the privilege at a yearly rental. The grounds and gardens spreading are BEAUTIFUL BEYOND DESCRIPTION.

No place nor palace in all Europe has their equal. Rare and beautiful trees, plants and flowers are brought from all parts of the world and thrive here as nowhere else. The drives. walks and shady paths are laid out in the highest degree of art. Every care and attention is bestowed upon them that money can do. The Casino building outside is not as pretentions as some, but inside is magnificently fitted up and consists of the great gambling hall, reading room, promenade and a little gem of a theater, which compares favorably with the grand opera at Paris. Here every afternoon and evening a fine concert is given free. As you enter the gambling hall a scene is presented to the eye that can nowhere else be seen. It is gorgeously decorated with paintings, frescoes, marble and inlaid woods. Thousands of light jets f.om the chandeliers make it as bright as day. Six large double roulette tables, each about thirty feet long, and two carte tables, are surrounded by an eager, fascinated throng so dense that you can hardly see the table, or watch the little marble, as it whirls in the turning basin until it finds the lucky hole. Fully as many ladies as men, flushed with excitement; are seen, some risking their last five franc piece on

THE TURN OF THE WHEEL Gray haired mothers, fair daughters, young men and old, justle each other, some urging others to bet, some begging them not to. It is a saying all over Europe, to be sure and buy your return not one in a hundred go away winning. All been lynched. have to enter one door and go out another to avoid collision, and as I sat on a sofs in the promenade, watching the endless throng go in and out, there seemed to be a quicker, gayer step to those who entered, and I wondered how much lighter their purses were when they came ont. The profits of the concern are said to be about twelve million france a year, but the expenses are enormous. It takes six men to run each table, and three sets for relief, as they are on water but two hours at a time. There are innumerable police and attendants are

on every hand; also an orchestra of fifty. An

army of 100 men guard the building and the

common soldiers are said to be the only ones in

the world who wear starched collars and cuffs.

Many sad things grow out of the losses made here

It is said two saicides a week are traced to this cause. One old lady has lost a fortune of 2,000,-000 franca, but yet plays every day. An American said to have won and left with 200,000 france last year, but such cases are rare.

OUR FIRST STOP IN ITALY was at Genoa. It is superbly situated on a semi-circular bay, surrounded by high hills, the houses extending to the top in places. The most remarkable thing about Genoa is that it was the birthplace of Christopher Columbus, and they have erected a fine modern monument to his memory. As I g zed upon it I felt like taking off my hat and giving three cheers for Christopher. From here we went direct to Rome, the eternal city, and found it to be the meanest but most interesting city as far as ruins and antiquity are concerned. No one can walk through the ruins and relics of bygone ages without being impre-sed how time will destroy all things, even the hardest stone and the finest marble, and ones thoughts are involuntarily diverted from the enjoyment of the present to the contemplation of the past, and the peculiar influence and shudder it brings upon you. The ruins also show that in size and architecture we have nothing at the present day to compare.

. THE COLOSSEUM, the largest theater and one of the most imposing structures in the world, is in an excellent state of preservation for ruins. It was completed by Titus in A. D. 80, and was inaugurated by gladiatorial and other combats lasting 100 days, in which it is said 5,000 wild animals were killed. You can see the caged dens where they were kept now. The arena is so constructed that it could be flooded with water for naval combats. It contained seats for 87,000 spectators, and is one third of a mile in circumference. You can view it for the first time only with awe and wonder. It is written as a prophetic saying of the eighth century:

"While stands the Colosseum, Rome sha'l stand When falls the Colosseum, Rome shall fall, And when Rome falls, with it shall fall the

The ruins of the Forum, the imperial palaces of Tiberius, Augustus and others on Palatine hill, are very interesting. Here we saw them removing fine marble statues just found, that had been buried for ages. The ruins of the im mense baths of Titus and Curacella, which next to the Colosseum are the most imposing of anything here, show that the old Romans must have kept themselves clean. The Pantheon is the oldest building of any note that remains in a perfect state of preservation. It was ERECTED B C. 27,

and is a large round building, lighted by a single aperture in the center of the dome. The walls are twenty feet thick, covered with marble which has partially fallen away by age. The churches of Rome number over three hundred, St. Peters, the pope's own, being the larg st in the world. It is not pleasing on the outside, but inside is a marvel of magnificence. The Vatican adjoining is the pope's residence. It contains some of the finest pictures in existence, only a portion of which can be seen by the public at present.

The Pincio is a fine modern park on high ground overlooking the city. A fine band plays here every afternoon. It is the resort of the elite of the city, and as fine carriag s and turnouts as can be found anywhere are seen here. The grounds of the Villa Borghese jut outside the walls is a great resort on the days when open to the public. Here we met King Humbert driving on Sunday afternoon. He raised his hat to us and we returned the compliment. One of the old traditions that is still worshipped by the Romans is that of Romus and Romulus (the founder of Rome) who are said to have been nursed by a wolf. You see it in bronze, in marble and in paintings every where you go. Even the cakes of butter at the first-class hotels and restaurants bear this imprint, and two carefully tended live wolves are to be seen in a cage as you go up the steps of Capitoline Hill. Bome is a miserable place to stay. The hotels are fair, but the climate is bad and the vermin worse. I was adorned with over three hundred fira bites the third day after arriving. I give it as my experionce that traveling for sight seeing is not the pleasantest thing in the world. There is a good deal of hard work and many discomforts, and if you only have one country to see or live in, the United States beats them all.

A Murderer Lynched.

CINCINNATI, O., March 28-Ten thousand people gathered at Music Hall in response to a call by reputable citizens to take action on the Berner verdict. Many could not get in. Strong resolutions were adopted, condemning the verdict, and a committee on legislation was appointed. Upon adjournment, a vast crowd moved directly to the jail, where they began an attack on the front door. At 9:30 the riot alarm sounded, summoning the entire police force to the fail. Berner was removed after sentence this afternoon and is now on his way to Columbus, but if the mob gets in, the other murderer will be lynched.

LATER NEWS.

CINCINNATI, March 28, 12:45 a. m .- The jail has been fired by the man and the crowd on the streets say they will out the hose to prevent the fire department from extinguishing it.

The Cincinnati Trouble. EXPLANITORY NOTE.—A short time since William Berner was arrested, charged with the murder of William Kirk and by a jury, on M rch 24th, was found guilty of manslaughter. I he verdict was declared privately, by the judge who tried the case, to be an outrage, and the jury, after leaving the court room, were hooted jury, after leaving the court room, were hooted at by the crowd with suggestions that they should be hanged. Kirk was killed in his stable by the blow of a hammer, and robbed of \$100 in money, put into a wagon and hauled off toward Cummunsville and dumped in a small mill creek, where the body was found two days later. Joseph E. Palmer and William Berner confessed they did the murder and robbery. On trial Berner testined that Palmer did the actual murder, while he only looked on and got a share trial Berner testified that Palmer did the actual murder, while he only looked on and got a share of the money. The verdict was universally condemned, and public indignation meetings were held. When it was known that he was sentened to only 20 years 1 mprisonment, the feelingbecame so great that an attempt was made by an aed mobes to rescue the prisoner from the officials while enroute for the peniferdiary. The train was assailed but in the excitement the officials while enroute for the penifentiary. The train was assailed but in the excitement Berner escaped, and after some time was by the officials recaptured, disguised, and taken back to the Checinnati pail. In the attempted lynching several of the mob were fatally injured and the excitement increased. The State inflitta was called out to suppress the mob which in the latest ftelegraphic reports of yesterday moming numbered 10,000 people.

Much of this news was not contained in the night dispatches to the associated press, and the above ourline is given that the reader may more clearly understand the following dispatches:—ED]

Mobs and Riots.

CINCINNATI, March 29 .- During the morning there was still a large crowd around the jail. The feeling has by no means been allayed by last night's tragedies and is growing, not only against the murderers, but against the ntilitia. The first blood-hed last night occurred in the tunnel leading to the jail from the court house. The further end of the tunnel was guarded by officers Nunn and Venseggern. As the soldiers approached by threes with guns pointed, Officer Venseggern threw up his hands and shouted "for God's sake don't shoot here, you'il kill your friends." Without heeding the warning the command "fire" was given and a volley went rattling through the tunnel. Officer Nunn fell, pierced by four balls. Venseggern was shot in the side of the head. Several of the militia were shot by their own guns. For two hours thereafter efforts were made on the outside to destroy Se whole building. Following is a list of the

Berner was caught at Foster's crossing about 2:30 p. m. and is in charge of officers who will take him to Columbus. Soldiers prohibit all access to the front or sides of the jail or to the street for a square in every direction. Apprehension of trouble tonight is growing stronger. ADDITIONAL NAWS.

CINCINNATTI, March 29, 9 P. M.-While Sheriff Hawkings was carefully protecting the front and flanks by barricades, he neglected to protect the rear which was the court house front. Immense crowds have gathered there, and large plate glass windows are being crushed by boulders. This will give entrance to the yard and jail through the tunnel. Troops from Columbus are not yet here. When lodged within the prison walls at Columbus, Berner was scared nearly to death. He was the first man that Warden Thomas ever saw glad to get behind the bars. He rejuiced when he was inside and wanted something to eat and a chance to rest. After supper he related his trip, and how every one he met was cursing and boiling for his blood. He is 18 years old and is sentenced to 20 years, and hopes to outlive it. He retired early and will attend chapel tomorrow. Gov. Hoadley has regiments and two batteries ordered to this city with i structions not to leave the Cincinnati depot unless absolutely necessary. Adjutant General Finley is enroute to Cincinnati and the Governor is sitting up to see the night through.

DEATH AND RAPINE. CINCINNATI Mar. 29, 9:45, p. m.—The mob is greater than last night and more drunken men in it. Wild rumors are affoat that the mob has a quantity of dynamite, and another that 3,000 men are coming from Kentucky to reinforce the mob. Sheriff Hawkins has sent deputies to the depots to hurry up the troops. The court house has been fired. When the inflamable substances were thrown into the treasurers office the troops fired a volley and drove the mob back. Many are wounded and possibly many killed. The treasury office is already doomed and the court house seems likely to burn. The armory hall in third ward is on fire. Captain Desmond of the first regiment has been killed. Sergent Malone is seriously wounded; also private McBrain. The crowd is threatening to destroy Hunts hotel on Vine Street, owned by Col. Hunt commanding the 1st regiment. The guests are removing now. Troops from Columbus are momentarily ex-A PUBLIC APPEAL

A BLOODY NIGHT.

CINCINNATI, March 29, Midnight.—Such a night of blood as this has not before darkened the history of Cincinnati. It is impossible to ascertain the true situation. Men have been killed several squares from the scene of the riot. One man was just shot in Fountain square. The court house fire was started by rolling in barrels of coal oil and setting it on fire and keeping everybody out. Lieutenant Desmond entered to subdue the flames and was instantly killed. The mob would not let the fireman use the engines. The flames went on unchtoked though slowly through the great structure strongly built at a

cost of a quarter of a million dollars. The court house fire means the irreparable loss of invaluable records, some of them of great histor ical interest and value, and also the loss of the second best law library in the U. S A carriage factory not far from the court house is reported on fire and in the present chaotic condition of affairs there is nothing to prevent untold loss from fire. When the mob had robbed Powels gunstore it was fired. The patrol wagon responded to the alarm and the mob fired killing one man and wounding another. The meh has lost all control and seems bound on destruction pure and simple. Firing upon the mob has been merciless, whether by gatling guns or by the soldiers cannot now be told. No one can get an estimate of the loss of life. Four dead men, unknown, are lying at the Cincinnati Hospital and 20 or more wounded, men are there. Wagons are still coming with more. It was nearly midright when the 14th regiment reached the scene. They with determined pluck and skill formed formed for the fearful work of clearing the street. They are now in the jail yard. Orders are being modified and everything done to avert further bloodshed.

Quiet.

CINCINNATI, March 31 - Everything has been quiet here during the day. The general feel ing is that there will be no further outbreak. Nearly en entire set of records in the recorder's office, containing records, deeds, mortgages etc... are saved. Not more than fifty volumes of records are gone, covering the transactions of about three years of about thirty years ago. This will be of immense value considering what else is lost. It is supposed the money in the treasury vaults and the records in the Probate Judge's vaults are saved, but the safes cannot yet be opened.

THE TROUBLE AT AN END CINCINNATI, March, 31 .- At the jail and city buildings everything is in a most complete state of defense. Across all streets and all railways approaching the seat of war barricades have been strengthened and re-enforced. A command of officers are sanguine in their expression as to no fear of a further outbreak, and indeed appearances in the city would lead one to think them perfectly right. The mob seems entirely quelled, and to stand in such wholesome fear of the reckless shooting of the soldiery and the terrible effects of gatling guns as to have had entirely a sufficiency of rushing into the jaws of death. The 13th and 14th regiments, from Hillsboro and Columbus, seem to be considered the most reliable, and are still on duty guarding the barricades. At the point of all attacks the entire military force endured unaccustomed hardships and exposures in a manner befitting even old veterau. This morning about 1 o'clock the 13th was on a march five miles to a jail and other detachments are on duty at the magazine. This afternoon the seventh regiment was ordered to jail to act as a trelief for a portion of the night, as the company above named have been continuously on duty there. It is the general opinion that no further trouble will happen.

TROOPS ORDERED HOME COLUMBUS, Ohio, March 31.—At noon Governor Hoadley ordered the troops en route to Cincinnati to return. The 4th and 14th regiments were relieved and the rest of the troops held in Cincinnatti until further orders. The city will be guarded until Wednesesy at least. WHAT EDITOR HALSTEAD HAS TO SAY.

New York, March 31 -- Murat Halstead, editor of the Commercial (lazette of Cincinnati, reviews the riots in that city in the following dispatch to the New York Tribune: "The number of persons killed and wounded in the riot thus far is about 20J. The last fatal shot fired in anger up to this writing was fired between four and five o'clock this morning, though a poor soldier boy was instantly killed this evening by the accidental discharge of his gun. The court house is not such an utter ruin as it was at first thought to be. A large proportion of the records have been saved. The money that was in the treasury is all safe. The vaults, which were very heavy, are mainly good. We have confidence that there will not be a repetition of the terrors of the past three nights, that will be so memorable here, but only the overwhelming force of state troops prevents further disastrous demonstrations. The determination to lynch the gang of murderers in prison and to release the crowd of rioters who have been made prisoners, is something terrific. and secret meetings were held to day that would mean mischief if there were not thousands of rifles and several batteries at hand. It is this display of power, making assaults by mob hopeless, that will prevent fresh outbreak. The presence of regular soldiers from Newport bar. racks at the sub-treasury last night was an element of confidence. In stormy times blue doth works well. It happens that the city comptroller has a complete list of the names of tax payers of the city and county, and The tax bills give their addresses. a descript on and valuation of property. These are valuable now. The rioting the first night was largely by workingmen of good character who resented the fact that murderers who have money to set in motion the machinery of criminal lawyers, have had freedom here. The second night the spirit of communism appeared, and petroleum was put to use, as by Parisians when they are pleased to burn their public buildings. The third night the number of determined men had been largely reduced, and there were swarms of boys that were smashing pawn-brokers shops etc. There wers some grown men but they were thieves. The boys were generally from seventeen to nineteen years of age, and one testified in the police court today that he was 13 and going on 14 years of age. Out of the sixty rioters gathered in for attempting to sieze the battery of cannon at Music hall, only ten were men, the rest boys-some very bad ones, while others seemed to want excitement above all things, and so the crowds have depreciated from honest men, misguided but animated by righteons wrath kindled against systematized infamy of the most outrageous character, to the vicious rabble of boys in the hands of the lowest desperadoes. The excited people had a real grievance to begin with. The administration of criminal law here has been dampable. That which has has happened will, we may hope, have influence that will lead to better ways." THE VERY LATEST,

CINCIANATI.-April I, 1 a. m.—The night has

been absolutely quiet. When the smallest nuclens of a crowd appeared anywhere within sight of the barricades, the soldiers ordered the people to move on, and in every instance the order was promptly obeyed. detail one company. Col. Hunt will command. Gens Anderson and Byan and Adjutant Gage have been requested to attend to represent the staff. The city is patrolled tonight by the members of the grand army of the republic in addition to the police force. There have been several arrests of drunken men, and the police closed the saloons at midnight. A smouldering fire in the recorder's office broke out tonight, but was soon extinguished.

Pigad Guilty.

LACONIA, N. H., March 31.—Thos. Samon was arraigned to-day for the murder of the Ruddy family and Mrs. Ford, in Laconia, in autumn last. He was assigned counsel, who announced that Samon was determined to plead guilty of murder in the first degree; that Samon had declared that it would not be just for him to escape from the scaffold, and that counsel could find no evidence of insanity on the prisoner's part. The prisoner's onnsel therefore advised the court to receive Samon's plea of guilty. Afer a medical examination Samon's trial will proceed.

Among the killed are LaMont Duport, vice president of the company and W. G. Hill, Supt. | Many houses, in this city were badly shaken by the explosion. The Repauno works were amongt he largest dynamite manufacturing houses in the country. The explosian is suposed to have been caused by the amount of heat generated by the nitric acid. Six occupants of the building were seen to rush for the door and were jammed in the passage when the explo sion occured. Six were instantly killed, their bones were broken and twisted, and their beads crushed in a frightful manner. The names of the killed are LaMont Duport, W. N. Hill, Edward Norcross, Geo Norton amd Lewis Lac employes, and a visitor supposed to be from New York.

The Rock Island. The latest news regarding the plans of the

Rock Island road and its Minnesota and Dakota extensions, the last including a line to Bismarck, is given by the Pioneer Press as follows: It was authoritively s'ated yesterday that the Minneapolis and St. Louis had contracted for the building of eighty miles of road northwest-ward from Morton. Morton is within a few miles of the terminus of the Pacific division, and the proposed extension is to run between the Hastings & Dakota division of the Milwaukee & St. Paul and the Winona & St. Peter division of the Chicago & Northwestern. The objective point is thought to be some point in the James river valley, where connection will be made with the recent purchase of the Chicago, Hock Island & Pacific. This will give the Minneapolis & St. Louis, or rather the Rock Island, a line from Jamestown to St. Paul and Minueapolis. It will not, however, give it an available line to Chicago, as a freight from the valley for that point will be compelled to pass through St. Paul or Minneapolis. The proposed extension is not however, intended to give the valley merchants a direct line to Chicago, but to pentrate a valuable country, the local business which will be very large. The Rock Island. however, will establish a direct Chicago connection with the new James River Valley line, by extending the Burlington, Cedar Rapids and Wortington. The Burlington & Northern already has an air line between Cedar Bapids and Worthington. The extension from the latter point will run just south of Watertown and strike the James river somewhat in the neighborhood of Ordway, where a junction is also likely to be made with the extension of the Pacific division. From the river the line will be ultimately extended to Bismarck, the terri-

most enterprising young business men is expected to return in a few days, after an absence of several months. He has been visiting the eastern cities during the winter and will go to Europe in May. During his absence the affairs of the office are under the very efficient management of Mr. R. W. Correll.

Mr. Evans, formerly of Duluth, Minn., arrived Sunday evening and will succeed Mr. Cooney as night operator in the Western Union office. Mr. Evans is a skilled manipulator of the mystic key and a genial good fellow, and will soon make scores of friends in our city. He assumes the duties of his position tonight. Dr. Price's Cream Baking Powder is heyond all Mr. Cooney goes to Devil's Lake te engage in

him in every venture.

Mr. E. M. Patterson who ranked among the successful real estate deslers of Biamarck last season, returned Saturday, from an extended trip through the country. During his winter vacation he visited Portland, Seattle, Tacoma San Francisco, Denver, Sa't Lake City, Kansas City and St. Louis, and declares that (with the exception of Salt Lake City.) he saw no more desirable location than Bismarck

C. L. Wood, one of the attaches of the freight department of the Chicago St. Paul & Omaha road has been in the city several days and will remain for some time. He is one of the pioneers of the North Pacific country, having preempted the site upon which Brainerd now stands and sold the same to the company. Having been in Bismarck when the shack was the ruling style of architecture he fully appreciates the great changes which have taken place.

Institute Work.

The institute opened Wednesday morning with twenty-seven teachers in attendance. The day's work evidently gathered inspiration and luster from the warmth and glow of the snn, for every subject was handled in a terse, off hand manner, and each teacher in attendance entered into the discussion of the numerous questions with a will and independence that showed spirit as well as brains. Conductor Mitchell instructed the institute in the subjects of Theory and Practice of Teaching, Language Lessons and Arithmetic. Prof. Clemmer, of Jamestown' who strived Tuesday evening and is acting as assistant con ductor, treated upon the subjects of History and Geography. After the superintendents and conductors had their "say," a general discussion was indulged in, everybody demanding the floor for the time allotted. The interest in the work of the institute is increasing with every day, not only among the participants, but with the citizens A number of visitors graced the institute room yesterday, and all enjoyed the exercises. DR BENTLEY'S LECTURE

in the M. E. church on the of "Physical Culture the True Basis of Education," was well attended and the doctor delivered a masterly address.

The teachers' institute yesterday was favored with the attendance of thirty idea-shooters, and as the Mandan teachers arrived last evening the number of teachers in attendance today will be about forty. Numerous subjects were discussed and the day's session was characterized by the same interest and enthusiasm in the work which has prevailed throughout.

C. B. Austin's lecture in the Methodist church last evening was indeed a treat to those who at tended. He is a man whose ability is well known in the capital city, and a large audience went to hear his discourse on "The work of the teacher.' He paid a deserved tribute to the teacher and pictured in a terse, forcible manner, the vast and important responsibillies devoiving upon those who guided the young from childhoed to maturity, instilling into their minds the facts and theories which should be their guide and safeguard through life. He was frequently applauded and the audience returned to their homes carrying with them many new and valuable thoughts.

Prof. Mitchell, of Fargo, will lecture on Storms " in the Methodist church this evening. His lecture is said to be very interesting and logical.

The institute closes this evening.

John (Pocahontas) Smith, of Fargo, passed through the city Tuesday on his return from the Pacific coast. While west he visited Portland, Seattle and Tacoma, and informs the writer that these places are alarmingly overcrowded. Thousands of laborers are out of employment and a heavy back-water of emigration may be expected. While the Pacific states offer many advantages to the capitalist and speculator, there is not work enough for the vast numbers of laborers and common classes flocking to that region. 'The result will be that the western and eastern tides of emigration will meet and locate in some central and promising land where there is room enough for all. The outlook is that, after the matter is fully understood, the great bulk of people seeking homes and fortunes will very sensibly settle in Dakota, and already the Missouri valley is receiving the benefit of its well-earned fame. When the people learn that land, the only source of wealth, is the true foundation upon which to lay the corner stone of prosperity and happiness, the vast fertile plains of North Dakota will be the receptacle into which the mighty flood of westward emigration will be poured. The number of settlers in north Dakota for 1884 will exceed the expectations of the most sanguine.

Died

A gloom was cast over the pleasant home o Mr. and Mrs. F. L. Stacey, Monday night, by the death of their only child Edith Josephine. The little one was four months of age, and had been suffering several weeks. Mr. and Mrs. Stacey have the sympathy of their numerous friends in this, their sad bereavement. The funeral ceremonies were held in the Catholic church last evening from which place the remains of the cherished cherub were taken to the cemetery.

Juvenile Entertainment.

Preparations are being made for a juvenile enterts inment under the auspices of the Ladies' Furnishing society. The date of the prospectively pleasant affair has not been decided upon. but it is expected that the brilliant youths and lasses of the capital city will be ready to soon step before the footlights. The entertainment will consist of recitations, singing, dialogues, etc. and the presentation of Mother Hubbard and Mother Goose.

A New Epterprise. Mr. Waller, of Iowa, who came to Bismarck

last season and dealt largely in horses, is about ready to advertise his dairy. He has a carload of fine milch cows on the road which he expects to arrive today, and has made arrangements to inaugurate and operate a first-class dairy. He will add to his herd of cows as rapidly as the business demands and will endeavor to furnish the cititizens of Bismarck with fresh milk and butter. Mr. Waller will also ship fine horses into the Missouri valley, his first carload for the eason arriving last evening.

Adjusting the Steele Losses.

J. J. McDonald, manager of the northwestern department of the Continental Insurance company of New York, went to Steele Tuesday, in the purpose of examining into the causes of the cured him of rheumatism.

Lte fire at that point and adjusting the losses of the same.

The heaviest losses were sustained by Messrs. Clock & Barkman, \$6,500, with \$5,000 insur ance, divided as follows: Continental of New York, \$9,000, Queen's of Liverpool, England, \$1,000, and Dakota Mutual, \$1,000. The firm's books and papers having been lost in the fire, it was impossible to come to a settlement Tuesday, and arrangements were made whereby Mr. Barkman will meet Agent McDonald in St. Paul as soon as the accounts are balanced, and an adjustment will be made, Mr. McDonald acting for the Queen's Insurance company of England as well as the Continental.

D. F. Allison's less was \$2,600, insurance in the Continental, \$800. J. J. Stebbins' property was insured for \$850 in the Queen's. These losses were adjusted. Mr. McDonald's agents in this city arc Steele Whitley & Lilley, and they aver that the people of Steele are not in the least discouraged by the disastrious fire, but are preparing to make more permanent and substantial improvements. All those whose property was destroyed by the fire have decided to unite in the construction of a brick block of one hundred feet frontage, three stories and a basement. There will be a large amount of money expended in Steele in improvements d-ring the coming season, and the town will still stand to the front.

Death of the Flood.

The Missouri has at last recovered from its bilarious ragings and the NorthernPacificis again ab e to carry passengers without delay or danger. The water fell with such rapidity during the night that at 7 o'clock Wednesday morning a large force of men began repairing the track which had been washed away for nearly a mile. No baggage or passengers were transferred yes terday because of lack of water to float the yawls. Captain Woolfolk was unable to remove the steamer Bachellor from its icy bed at Rock Haven, but the steamer Undine was brought down for service. The steamer was not used however, as the necessary loading and unloading on either side of the river would consume more time than the repairing of the track. A gang of men at cach end of the wash-out worked toward the centre and by five o'clock everything was in readiness for the word "go." A passenger train had been made up at this point, and, loaded with rejoicing emigrants and delayed passengers, pulled out for the west. AN IMMENSE PILE

road were engaged in the work of sorting the same and preparing it for the evening train. All passengers mail and baggage were carried over the river last evening and a portion of the emigrant movables were sent out during the Never was more faithful or effective work done than by the officials of the Northern Pacific at this point during the flood. Superintendent Graham labored days and nights, with but little sleep, and Agent Davidson rested but a few hours each night since the first gorge formed below this city. Mr. Graham's ability as a superintendent could not have undergone a keeher test and it is no more than common justice to say that he proved equal to all of the

of express and baggage bad accumulated at this

point, and all yesterday the employees of the

complicated and annoying emergencies which arose. Mr. John Davidson, the popular and widely known agent at this point was a constant harmonizer and distributor of contentment among the emigrants. Many of his friends were surprised to hear him hurling an avalanche of unadulturated Teutonic loose at the recent arrivals from Faderland, while he fired a thousand and one orders at his assistants. As a linguist Mr. Davidson is a roarer, and during the flood he gave encouragement and cheer to many a freiful emigrant—"braced them up," as it were. Not one case of suffering was reported by reason of the floods, and in this fact Superintendent Graham is well repaid for the burdensome labors heaped upon him and his assistants.

Mr. R. S. Withers, of Fairlawn stock farm, Lexington, Ky., writes: "I have such confidence in St. Jacobs Oil, the great pain cure, that I use itoh everything; myself, my hor-es, my negroes. Everybody and every horse, for all kinds of aches and pains, believes in its sovereignty as a

To See the Mines.

Jos. Hanauer will leave for the west next week for the purpose of visiting his gold mine which is I cated about seventy-five miles southwest of Bozeman. The object of his journey will be to make a general speculative inspection of the west and during his travels he will visit the Couer d' Alene mines. He will be gone for some days but will hasten his steps homeward to be ready for the opening of the immense stock of clothing and furnishing goods which was purchased by the head of the firm, Mr. Sig Hanauer, during his eastern trip.

There has been an objection brought forth to my being a candidate for alderman in the 2d ward on the ground that I am not eligible to the office, my family not being here. While I do not concede the legal point, and shall still act as a citizen, yet rather than stand on any objectionable ground. I withdraw my name, thanking the convention for conferring the honor of nominating me for that position. E. VAN HOUTEN.

Mr. Van Houten baving withdrawn for the reasons above stated, the committee appointed by the young men's convention have substituted the name of John Mallanney for alderman in THE COMMITTEE.

IMPOS~IBLE ESCAPE.

Absolute Truth with Collateral Proof From Which There Can Be No Appeal.

For the past three years we have had a standing reward of \$5,000 for any statement of cure published by us which was not, so far as we know, bona fide. We did this in order that all readers might know the absolute truth of all our assertions and that they were based upon the value of our remedy and not upon idle words. Below we give a few extracts from recent letters which speak for themselves. We will only add that we could furnish 100,000 more of a similar nature did occasion require, but we believe the entire American public is now convinced of the positive value of Warner's Safe Cure.
